DETAILED ACTION

Allowable Subject Matter

1. The following is a statement of reasons for the indication of allowable subject matter: Claim 1 is allowable over the art of record because the prior art does not teach a dual frequency antenna comprising a plurality of nonlinear resonant circuits, each nonlinear resonant circuit interconnecting at least two of the plurality of dipole antennas and configured to permit reradiation of signals having the third frequency over the effective length, and in combination with the remaining claimed limitations.
2. Claim 12 is allowable over the art of record because the prior art does not teach a method of down-converting at least first and second electromagnetic radiation frequencies comprising converting the first and second frequencies to the difference frequency through a nonlinear resonant circuit coupling the at least two dipole antennas; and transmitting an electromagnetic beam at the difference frequency from the coupled at least two dipole antennas, and in combination with the remaining claimed limitations.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tho G. Phan whose telephone number is 571-272-1826. The examiner can normally be reached on M-F, 9:30-6:00.
